

You want to launch projects for a citizen-driven energy transition, but don't know where to start?

THE COMMUNITY ENERGY CITIZENS HELPDESK

IS HERE TO SUPPORT YOU

As a group of citizens engaged in the energy transition, we can help you set up an **energy community** – a citizen-owned project around the production, consumption and storage of clean energy, paving the way towards climate neutrality.

From France, Belgium, Croatia, Greece and the Netherlands, we have extensive knowledge and experience setting up thriving energy communities in different contexts.

WE CAN PROVIDE YOU WITH

- Legal & technical advice
- Community building
- Administrative assistance
- Moral support
- Guidance on citizen engagement & governance
- Feedback on your project
- Help tackling issues and roadblocks
- A convivial community

WE HAVE FACED THE SAME
CHALLENGES AS YOU.

SO LET'S HELP EACH OTHER!
